

# COPPER ROUND 25CM

Copper is created by exploding a thin layer of pure metal onto the surface of a polycarbonate globe. Complimentary forms are created in the trademark mirrored copper, allowing clusters to be formed, lower ceilings to be illuminated or narrow corridors to be colonised by the Copper family.

## COPPER ROUND 25CM

<b>Year of Design</b>	2015
<b>Finishing Process</b>	Metallised
<b>Environment</b>	Indoor, IP20
