

new perspectives

outdoor collection

on scandinavian design

Muuto's Outdoor Collection characteristically merges aesthetics and craftsmanship with functionality and an honest expression, incorporating enduring materials, weather-resistant finishes and a bold range of colors. It brings a distinctive Scandinavian simplicity and ease to the outdoor space.

new perspectives on scandinavian design

Muuto is rooted in the Scandinavian design tradition characterized by enduring aesthetics, functionality, craftsmanship and an honest expression. By expanding this heritage with forward-looking materials, techniques and bold creative thinking, our ambition is to deliver new perspectives on Scandinavian design.

tuning

into

Our growing selection of outdoor furniture leans into another guiding principle—nature’s inherently grounding effect on us, one that contributes to a noticeable sense of *calm and well-being*. We still find ourselves most authentically in nature.

nature

Studies* have shown that spending just twenty minutes in nature significantly lowers the levels of the stress hormone cortisol, giving new meaning and urgency to the outdoor spaces, be it a balcony, garden, patio, or terrace. The outdoor space is a source of joy, respite and self-expression, a place to enjoy in solitude and in gathering—across the span of seasons.

*Quick-dry foam, known for its durability and resilience, is designed to allow rainwater to pass through directly, promoting rapid drainage and preventing the absorption of water, unlike standard cushions. If exposed to moisture, it is advised that the cushions be tipped on their side to enable water to drain out effectively.

The air circulation ensures constant air circulation, eliminating mold accumulation in the cushions.
