Remade to Last

In keeping with the idea of sustainability, we focused on the durability of our signature accordion pleats.

They play an important role in enabling you to bring the bag anywhere (not only while shopping) and use it anytime for many years.

The pleats endure machine washing over 100 times and still fold down in seconds, ensuring a long-lasting product.

Production with Minimal Fabric Wastage

Shupatto is made of one continuous piece of polyester fabric. We design seamless repeat prints that are a continuous tiling of artwork and use every inch of the material.

It is also designed to keep itself closed and compact without an additional pouch for storage.

Waterless Printing & Our Dyes

Shupatto is printed using waterless printing, which eliminates the dampening system used in conventional printing.

No bleaches are used.

We always ensure not to use more dye than we need.

In that way, we can minimize the dye waste from printing.

Umbrella

We wanted to make an umbrella
that felt light and
comfortable on rainy days.

No folding.

No belt.

No wet hands.

By adding a new mechanism
to the product category,
we have revolutionized the umbrella.
The Belt-free Closing Umbrella helps
ensure your rainy days
are seamless and stress-free.

Watch our video

Just “One-Pull” to close it and the umbrella rolls up on its own.

A Unique Spiral Structure

Shupatto Umbrella adopts a unique spiral structure that allows you to close the umbrella without needing to touch the fabric or use a belt. The shaft rotates as you twist the umbrella, causing the fabric to wrap around towards the center.

Your hands never get wet

Simply pull the slider inwards and the fabric will neatly and smoothly fold into the frame without touching your hands, keeping them dry.

Button-Free Lock

Raise the slider to unlock and pull to release. There's no need to push a button, which allows the umbrella to smoothly open and close.

Drying Stopper

Equipped with a stopper to dry the umbrella in a partially open position. The umbrella gently stands in place until dry.

Water Repellent

The Shupatto Umbrella is coated with a high-grade water repellent. Raindrops easily fall off the fabric, allowing the umbrella to stay dry.
