

SCREW SIDE TABLE 60CM

Inspired by a rotating sculptor's table, Screw uses typical reinforcement details, like a piece of traditional workshop equipment. In a nod to London's industrial past, Screw is also made with materials and processes associated with the Industrial Revolution. Its rotating top on a threaded steel pole allows for adjustable height, while being sturdy and durable.

Year of Design	2015
Product Weight	28.00kg
Certification	BS EN 15372: 2016 Level 2

BLACK BASE, WHITE MARBLE
